LOCAL SCOUT ON TELEVISION

One of our fellow scouts, John Shirtz of Frazer #76, recently appeared on television's "Science All Stars" to demonstrate his award winning science project, a "life support" system. The project involves white mice kept alive by breathing oxygen produced by algae.

John is 16 years old, and a star scout. He attends Great Valley High School.

His project won first prize in the engineering and applied science division of the Chester County Science Fair and the regional Delaware Valley Science Fair.

Congratulations John, keep up the good work.

VOICE OF GOOSE THE

Dear "Pillow Bait":

When will I be able to purchase the new Order of
the Arrow supplies for our lodge?

L.B.J.

*Editor -- The new neckerchief and patch will probably be on sale at the two work days; but at the Spring Ordeal for sure.
